

MTU

La Crosse Municipal Transit Utility

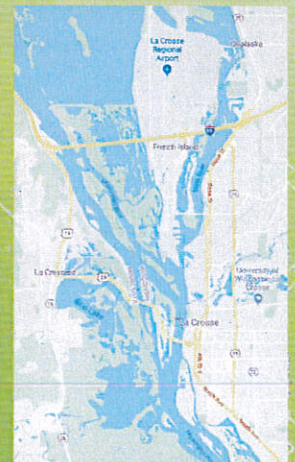

Mission Statement

It is our mission through the efforts of dedicated and well trained employees, to provide safe, reliable, and convenient public transportation to the citizens and visitors to the La Crosse area.

Currently, 9 fixed routes and one circulator offer transportation throughout the area, with seven routes operating seven days a week. "MTU Mobility Plus" paratransit service is available for individuals unable to use fixed route buses, under the requirements of the American with Disabilities Act. A cooperative funding agreement between MTU and Inlusa, allows eligible individuals throughout the urbanized area to also utilize this service. The MTU also offers the SAFE RIDE. SAFE RIDE is a program with UWL, Viterbo, and WTC that allows students to travel safely from campus to the downtown area Thursday through Saturday.

La Crosse MTU provides safe, reliable, and affordable public transportation to the City of La Crosse and surrounding areas. Our service represents a successful partnership between the City and County of La Crosse, the City of Onalaska, the Town of Campbell and the City of La Crescent, Minnesota. The service is owned and operated by the City of La Crosse, with support and funding from the Federal Transit Administration, Wisconsin Department of Transportation, and all of the communities it serves.
